Job Description

Arkema Inc. is actively recruiting for a **Corporate Occupational Safety Lead**. The **Corporate Occupational Safety Lead** will be part of the Industrial Safety Group reporting to the Director, Industrial Safety.

ACTIVITIES:

- Lead and/or participate in health and safety activities such as incident investigations, PSM/RMP, AIMS, health and safety, toller and other technical audits/reviews throughout the company including international sites as needed.
- Provide oversight, consultation and support regarding safety programs, processes, action plans, best practices, and legal/internal requirements
- Conduct occupational risk assessments such as Task Hazard Assessments, Ergonomic Assessments, etc. as needed to prevent workplace injuries and illnesses and to improve workplace conditions and practices.
- Manage health and safety projects small to large, local to global – concept to execution
- Drive continuous improvement by optimizing processes, automating data gathering, reporting, and analysis.
- Create effective training materials and deliver training to the plants on HES and AIMS topic areas
- Build tools for plants on HES regulatory and AIMS topic areas
- Analyze trends and root causes from incidents within Arkema regionally and globally
- Recommend measures on improving the AIMS program as well as plant safety and compliance with legal/internal requirements
- Verify the appropriateness and effectiveness of action plans associated with audit findings and incidents
- Develop, implement and maintain health and safety programs/processes/procedures as well as AIMS procedures and standards
- Close follow-up of assigned sites regarding Safety program and support as point of contact for the Industrial Safety Group
- Provide field safety support as needed
- Ongoing communications relating to health and safety systems and processes
- Assist in migration to Arkema processes and systems for acquisitions and/or new locations
- Participate as a 2 call phone holder (on call)

CONTEXT AND ENVIRONMENT:

- Able to work in and support an active corporate professional environment
- Able to work in close relationship to the manufacturing environment

- Able to motivate and influence indirect resources from multiple disciplines to change and improve
- Able to act independently with limited supervision
- Able to participate in as well as lead teams
- Must have flexibility in communications to provide effective and professional communications with people from any position within the organization
- Able to analyze data for trends, providing comprehensive and understandable summary results
- Must have strong presentation and training skills
- Must be able to solve problems creatively
- Must exercise sound judgment using available data and input from others considering both short term long term impacts and understand the impact of decisions
- Supports over 30 plant sites and 12 business units
- Travel Requirements – travel both within Arkema Inc. with potential travel to Europe and Asia (limited). 40% travel potential

Job Requirements

QUALIFICATIONS / EXPERIENCE REQUIRED:

- At least 15 years of experience in chemical or related industries
- Knowledge of chemical manufacturing operations and relevant federal and state regulations including OSHA H&S and PSM.
- Ability to quickly identify, evaluate and understand complex technical, regulatory and organizational issues and to develop appropriate and cost effective solutions.
- Strong computer skills in the use of HES applications and the Microsoft Office suite.
- Strong verbal and written communication skills
- Technical experience with safety and health management processes and program components
- Bachelor degree in occupational safety, engineering or related fields is required.
- Certified Safety Professional designation required.

A global chemical company and France's leading chemicals producer, Arkema is building the future of the chemical industry every day. Deploying a responsible, innovation-based approach, we produce state-of-the-art specialty chemicals that provide customers with practical solutions to such challenges as climate change, access to drinking water, the future of energy, fossil fuel preservation and the need for lighter materials. With operations in close to 50 countries, some 19,000 employees and research centers in North America, France and Asia, Arkema generates pro forma annual revenue of some \$8.1 billion, and holds leadership positions in all its markets with a portfolio of internationally recognized brands.,

Arkema Inc. provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, sex, national origin, age, disability or genetics. In addition to federal law requirements, Arkema Inc. complies with applicable state and local laws governing nondiscrimination in employment in every location in which the company has facilities. This policy applies to all terms and conditions of employment, including recruiting, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation and training.

For more information about the EEOC, please refer to The "EEO IS The Law" poster
